

DAIKIN

SUPER MULTI *NX*

In 1969, Daikin developed the first multi room air conditioning system in Japan that needed just one outdoor unit. Over the ensuing 35 years, Daikin has built an enviable reputation with the constant progress of its technology. Super Multi NX requires only a single outdoor unit to maintain pleasant comfort in up to four rooms. Where outdoor unit installation space is limited, it is the ideal choice. Air conditioner settings for each room can be controlled individually to suit the preference of each person. While optimising personal comfort, Super Multi NX uses DC inverter technology to reduce energy waste.

2MKS series

Up to 2 indoor units can be connected.

3MKS series

Up to 3 indoor units can be connected.

4MKS series

Up to 4 indoor units can be connected.

Connect 4 indoor units to a single outdoor unit
